STOKERY AMSTERDAM

THE ELEMENTAL SERIES FIRST RELEASE – 2025

At Stokery Amsterdam we have done everything in our power to distil the finest whiskies. In 2022 we laid the foundation and in November 2025 The Elemental Series saw the light of day. A series in which our craft and dedication, combined with the finest organic grains, come to full expression. It is a dialogue between craftsperson and nature. Hence the name The Elemental Series.

The primal elements — air, earth, fire and water — form the basis for us. This series is our foundation. Each whisky is a single cask, bottled at cask strength, without chill filtration or added colouring. This is how we present these whiskies in their purest form so you can experience the unadulterated character of each element.
